9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your Company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes

We strive to reduce waste and recycle as much as possible. Our waste primarily comprises food, waste, paper, plastic and e-waste

- Curbing generation of plastic waste: We have stopped procurement of plastic stationery and encourage our employees to use glass bottles at our offices to reduce the number of plastic bottles being discarded after use. All our facilities use 100% biodegradable plastic garbage bags to collect and dispose of dry and wet waste.
- Reducing paper and printing consumption: We have implemented strong measures for digitising processes to reduce the need for paper. Further minimising the usage of paper across offices is an ongoing activity. Customer accounts have now transitioned to digital opening. The documents required as supporting are also uploaded digitally. Accounts are being opened without any paper consumption. Paper-based Office stationeries also have now been stopped apart from the mandatory ones.
- E-waste management: Our E-waste broadly includes computers, servers, scanners, UPSs, Batteries, Air conditioners etc. All such E-wastes are being disposed of through registered E-waste vendors.
